DETAILED ACTION

This is a reply to the Applicant's amendment submitted on 02/07/2005. According to this amendment, claims 1-8, 11-15, 17-19, 21-24, 27-31 and 33 are cancelled; thus, claims 9, 10, 16, 20, 25, 26 and 32 are currently presented in the instant application.

Allowable Subject Matter

1. Claims 9, 10, 16, 20, 25, 26 and 32 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art on record does not show or fairly suggest a delay matching circuit including a PMOS transistor having a drain coupled to the first input, a gate coupled to ground, and a source coupled to a supply voltage, wherein the PMOS transistor is configured to correspond substantially to a PMOS transistor in a master output driver of the flip-flop; and b) an NMOS transistor having a drain coupled to the second input, a gate coupled to the supply voltage, and a source coupled to ground, wherein the NMOS transistor is configured to correspond substantially to an NMOS transistor in the master output driver of the flip-flop, as called for in claims 9, 16, 20, 25 and 32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
